1.30pm	Store Reviews / Visits
3.30pm	Return from the Stores and Coffee
4.00pm	Store Visit Reviews - <i>facilitated by Colin Peacock</i> What inspired the groups, what can they take back to their organizations as ideas and what can they give back to the host retailer as new ideas to consider?
4.45pm	Break
5.00pm	Start-Up Speed Dating Session In small groups of 3-4 retailers, each group will have five minute “dates” with ten new start-ups, each start-up pitching their new ideas to help retailers improve waste & markdowns, and at the same be fresher and in-stock.
6:00pm	Close and Transit to Hotel
7.00pm	Informal social networking evening With an emphasis on moving around, talking to new people and learning more about the start-ups, this informal, beer, frites and moules evening, will be a great, fun way to end a productive day

THURSDAY JUNE 27TH

Delhaize Head Office, Rue Osseghemstraat 53 1080 Brussels, Belgium

8.30 am	Arrivals and Coffee
9.00 am	Welcome, Store Visits Recap and Agenda Overview – Colin Peacock
9.15 am	<p>Retailer Case Study</p> <p>In this case study presentation, the speaker from a leading and progressive US supermarket chain, will share the steps they took to improve waste & markdowns, while at the same time growing sales, and the fresh proposition. These actions included senior management alignment, an end to end scope, new ways of working and the introduction of new technologies to improve work processes, especially in the in-store production departments.</p>
10.00 am	<p>Round Table Discussion</p> <p>How much of what was presented was relevant for the table? What ideas could the table give back to the speaker? What ideas could the table take back to their own business?</p>
10.45 am	Coffee Break
11.00 am	<p>Retailer Case Study: What collaboration look likes in our business [and why we collaborate]</p> <p>Much has been said about the role of collaboration but what does it look like in the real world? In this case study presentation from a leading European retailer, they will address how they overcame the known barriers to collaboration; competing internal priorities, the sharing of data, disagreements on how to share the benefits of working together, the consistency of the respective teams, and the extra capacity (hours & weeks) required to allocate to managing collaboration projects. The speaker will close by sharing their business case for collaboration, illustrating this business case with specific results from collaborative projects with their farmers, producers and fresh product vendors.</p>
11.45 am	<p>Round Table Discussion</p> <p>How much of what was presented was relevant for the table? What ideas could the table give back to the speaker? What ideas could the table take back to their own business?</p>
12.15 pm	Lunch
1.00 pm	<p>Expiry Date Visibility “Beer Game” – Ast Prof Karel Van Donselaar and Ast Prof Rob Broekmeulen</p> <p>From their initial presentation of the model in Lisbon, Karel and Rob will introduce the delegates to the expiry date visibility “beer game” and a new interactive way of scoping out the potential improvement in waste that can be gained when there is system wide visibility (via RFID, via databar, etc) to the expiry date.</p> 
2.00 pm	Break

2.15pm	<p>Shark Tank Retail Food Waste Prevention Innovation Challenge - Jeremy Basset</p> <p>From a long list of over 100 start-ups, 5 short-listed start-ups will present their breakthrough innovations to waste & markdowns to a panel of retail leaders including Tesco, Lidl and Albert.</p>  
3.45pm	Expectations Review, Next Steps and Date of Next Meeting
4.00pm	Close
