

TUESDAY OCTOBER 23RD

GS1 Portugal Offices, Estrada do Paço do Lumiar, Campus do Lumiar, Edifício K3
 1649-038 Lisboa

12:00pm	Arrivals, Light Lunch and Coffee at GS1 Portugal Offices
12.30pm	Welcome, Agenda Overview & Meeting Expectations. - <i>Colin Peacock</i>
1:00pm	Introduction to Sonae and their Waste Strategy Welcoming the group to Lisbon, a senior executive will welcome the working group, introduce Sonae, and then share their approach to waste, with the focus on results to date and the actions they are taking to deliver, including their commitment to the circular economy strategy with banana bread and carrot jam.
1:30pm	The Portugal National Waste Plan With an audacious goal of zero food waste, Portugal has declared zero tolerance to food waste. In this update on the national plan, the leaders of the plan will share their latest achievements.
2.15pm	Store Visits Lisbon is rich with interesting, easy to access, grocery stores. In groups of 3-5 delegates, each group will visit one Sonae store and then at least one other competitor to review key waste prevention themes including, assortment productivity, use by and sell by labelling, product rotation, back room management, production practices including fresh production planner and the extent of 5 S deployment, markdown strategy, waste food re-purposing capability and food recycling.
4.30pm	Return from the Stores and Coffee
5.00pm	Store Visit Reviews - <i>facilitated by Colin Peacock</i> What inspired the groups, what can they take back to their organizations as ideas and what can they give back to Sonae as new ideas to consider.
5.30pm	Close and Transit to Hotels
8:00pm	Cocktails and Network Dinner

WEDNESDAY OCTOBER 24TH

GS1 Portugal Offices, Estrada do Paço do Lumiar, Campus do Lumiar, Edifício K3
 1649-038 Lisboa

9.30 am	Arrivals and Coffee
10.00 am	Welcome, Store Visits Recap and Agenda Overview – Colin Peacock
10.15 am	<p>Wrestling with Waste Prevention in Production Categories – Round Table Discussion</p> <p>Fresh production in stores can delight, excite and “wow” shoppers but often great deli’s, rotisseries, pizza bars and bakeries can also deliver very high levels of waste. Leveraging real world examples, this round table session will explore in detail the strategies that retailers are adopting to manage the high levels of food waste that can be experienced from production categories to include but not be limited to:</p> <ul style="list-style-type: none"> • Assortment • People (Hiring, Training, Rewarding, etc) • Layout and Equipment • Routines and Compliance • Forecasting and replenishment (including the role of technology) • Labelling and Markdowns management • Re-purposing and recycling strategies
11.15 am	Production Waste Round Table Discussion and Feedback
11.45 am	Coffee
12.00 pm	<p>Scale and Nature of Online Grocery Food Waste – Associate Prof Vasco Sanchez Rodrigues, Cardiff University</p> <p>Online grocery shopping in the United Kingdom is the fastest growing purchase channel, according to retail analysts IGD. In this unique and first of its kind research, Vasco will share insights on the nature of the online grocery waste problem relative to the traditional grocery retailing. The session will draw on new research data gathered by Cardiff Business School, WRAP and Ocado. In the interactive part of the session, Vasco will then lead a discussion on how online grocery retailers could respond to the unique challenges of online grocery waste, and the need to address the root causes of waste that are largely outside of the organisation’s direct control</p>
12.45 pm	<p>Retail Food Waste Prevention Challenge 2019</p> <p>The official launch of a six-month search for the hottest start-ups on food waste and the announcement of the date of final event to include speed dating with the top 20 start-ups and a Sharks Tank like pitch event to five retailers.</p>
1.00 pm	Lunch
2.00 pm	<p>Expiry Date Visibility Business Case & Developments – Round Table Discussion</p> <p>Groups will “road test” a new excel based model that can help retailers and manufacturers better articulate the financial benefits of increased system-wide visibility to the expiry dates of their inventory by location (store, DC, etc) – model will be tuned to identify of batch Vs sku level data. Based on the insights, groups will debate how this better articulation of the “prize” can inform thinking on the requirements of any future processes (receiving, counting, scanning, etc) and the enabling technologies (RFID, 2D bar codes, etc)</p>
3.30 pm	Expectations Review, Next Steps and Date of Next Meeting
4.00 pm	Close
